UI/UX Designer

Tax declarations are complicated, time-consuming and no one really understands them. We are on a mission to change that: With specialised tax tools (e.g. for students, retirees, soldiers) and modern UX, are we currently rethinking the whole tax industry. We are looking for a skilled UX/UI designer to join us on this mission.

You will co-shape our product and introduce modern interaction design. You will work in a cross-functional agile team, where designers interact closely with PMs and Devs.

This is a full time role, based in our cosy loft in the middle of Berlin, Kreuzberg.

Job Description

What you will do

- Create clean designs
- Lead the creation of outstanding brand visual and engaging interactions
- Produce materials for developers, including user flows and mockups
- Rapidly iterate on design prototypes and working applications
- Rethink how people do their taxes
- Conduct user testing, interviews, and analysis
- Work as a collaborative team member with developers and product managers

You'll need to have

- At least 3 years of experience designing complex interfaces
- Experience in User Research, User Experience Design and also Visual Design
- User centric mindset
- Nice to have: Technical experience/comfort, e.g. familiarity with HTML5, CSS, responsive web design

How are we different?

- We prefer lean and agile over big
- We believe that a diverse team will create a better product
- We prefer small experiments over big discussions
- We already do a lot of AB testing and user research
- We base our design decisions on multiple thousand data points
- We talk A LOT about taxes :)

Apply Now!

You don't need a perfectly crafted CV or cover letter. Instead, just tell us in a brief mail about you and the most important things we should know about you. Include your portfolio or dribbble profile if available. We reply fast.
